Re: Public Service Commissions of Kentucky
Case No. 95-230

Dear Sir,

We very strongly feel that a certificate of Public Convenience and Necessity to construct and operate a 120 feet high tower with nine antennas for a total height of 126 feet should not be granted. Construction of such a tall structure within a few yards of a 15 foot tall motel will not be in harmony with surrounding buildings. Such a huge structure in front of our one story building will not only shadow our building but our business also.

We sincerely feel that permission to build the tower should not be granted.

Sincerely,

Y.D. Patel
Manager
Hay Govind Inc.
